Land Systems Reference Centre contract awarded

Steria, a leading IT services provider, has been selected by the MoD (UK) to run the Land Systems Reference Centre (LSRC) from January 2008. The five-year contract, valued at approximately £17m, will see Steria, as Prime Systems Integrator, together with a core team of suppliers — SCS Ltd; Aspire; **Drumgrange Limited**; Johnson Controls; CSIS IPT — manage and support the LSRC and its capability. Using -based service management, the Steria team will offer fast response to change and scalability to manage the increasing complexity of testing in an increasingly networked and joint operational environment.
